Dear Mr. Middleton:

As City Attorney for the City of Blue Springs, Missouri, I am responding to your letter of January 18, 1995. Neither I nor the City of Blue Springs has any reason or requirement that it justify its actions to you. Suffice it to say that the release of the property in question was authorized and done properly. If you do not concur, I suggest that you consult an attorney and take whatever action you deem necessary under the circumstances.

With respect to your request concerning various documents, we will supply those that you request that are public records. Attached are all records that we have that document in any way the release of the jewelry in question. The records are as follows:

1. property report (two pages); and
2. property disposition sheet (showing temporary release, permanent release and property disposed of).

If you have any other questions of the City, please direct them to me.

Very truly yours,

Robert K. McDonald
